MISSISSIPPI FLOOD NEWS. River Continues to Rise in Louisinan District.

MEMPHIS, TENN., April 15.-While the condition of affairs in the overflowed Mississippi delta is reported brighter tonight, the situation between Vicksburg and New Orleans is causing the greatest apprehension. The river continues to rise, in the Louisiana levce district, and rise, in the Louisiana levee district, and weak spots in the levee are being strengthened. The suffering in Sundower county, which forms part of the delta, it is reported has been greatly alleviated, and the country is dry. Farmers are busy ploughing and planting cotton.

The water at Rosedale has not receded. The first train that has entered Clarkedale for many days has arrived there. Trains are also being rup from Clarkedale to Minter City and Philip, and from Lulu to Jonestown.

At Helena the situation is unchanged. At a meeting of the property-owners of the city to-day it was decided to begin the erection of a new levee around the city.

The former has lost its identity in the general flood, and the latter may do so soon. REDUCTION IN RAILROAD RATES. A Getting Down to the "Emergene; Basis" Proposed.

CHICAGO, April 15 .- Some of the western roads are openly advocating a reducof passenger rates to what they call "emergency basis." The reason they an "emergency basis." The reason they give for the wish to cut the rate is that the passenger business is dead, and some measures are needed to increase the volume of traffic. The opponents of lower fares say if the rates are reduced there may be some trouble, in view of the Supreme Court decision, in getting the rates back to their old basis again without taking some action that would be illegal. They think also that it would be indead. They think also that it would be most unadvisable at the present time to reduce any rates, for the reason that it will give the various legislatures of the Western States an idea that the roads can make money with the rates at a lower point than they are now, and that hostile legislation will ensue. The advocates of the lower rates have no argument to offer save that the cheap rates will stir up traffic, and if it once begins to move it will keep moving, even after the rates have been restored to their old level. There is no chaince of a concerted reduction in rates, but as long as there is a strong element which favors a reduction of the rates, a general feeling of insecurity will prevail among the roads.

The general committee of the passenger agents of the western roads, which has for two weeks been working on the new agreement for the association, has finished its labors. The agreement is practically the same as the old agreement, with the exception that it contains no provision regarding the maintenance of rates. There is no doubt that it will be adopted by the executive officers practically as it stands. give for the wish to cut the rate is that

Lunatics in the Almshouse.

The sub-committee from the Committee on Relief of the Poor, appointed to look into the question of what should be done with patients or inmates returning to the City Almshouse who had been sent to the client of Public Charlities yesterday afternoon at 6 o'clock. There were in attendance Chairman James I. Smith and Mr. Miller, of the sub-committee; Dr. Trevillian, physician to the almshouse, and Superintendent Davis. Dr. Trevillian stated that he and the Superintendent had, with the sub-committee, interviewed Judge Witt, of the Hustings Court, who has entire authority over lunatics in this city. They had explained carefully to his Honor the situation, and the inability of the officers at the almshouse to provide suitable wards for the care of such persons, and had found him ready and willing to do anything in his power to relieve them of their present situation. Judge Witt had suggest d or advised the Superintendent to have a second commission of lunacy held upon such persons, and recommit them stgain to the City Jail, assuring them that should the Jail physician again recommend the discharge of such partients, he would order a commission of conference to pass upon such cases.
